No. 30

Cattle Embargo Will Be Removed

British House of Commons Decides That The Embargo Against Canadian Cattle Should Be Taken Off by Majority of 76.

LONDON, July 25.—The Canadian cattle embargo which has been under discussion for the last four or five years in Canada and England was brought up in the house of Commons on Monday. The government agreed to open house on the question and a free and full discussion was held with the result that a motion by Wm. Shaw, Coalition Unionist, opened with a motion urging removal of the embargo, then came an amendment by Capt. Evans, Coalition Liberal, declaring that it would be inadvisable to repeal present provisions which constituted a measure of security for the British agriculturist.

After a lengthy debate a vote was taken on the amendment which was rejected by 241 to 171.

Asquith and Churchill were strong for the removal of the embargo and the government and different parties were divided.

Didsbury U. F. A. Will Hold Big Picnic

Arrangements are being completed to hold a big U. F. A. picnic on Wednesday, August 2nd, at the town park, west of the butte. The committee in charge have drawn up a good program of sports which will include athletic events farmer's green horse races, baseball games, etc., and generally promise a good time.

This is the first U. F. A. picnic to be held in Didsbury and a cordial invitation is extended to everybody to come out and have a real get together good time.

Bring your lunch baskets and spend a social time with everybody. This includes granddads, the baby and Towser.

The sports will start sharp at 1 p. m. and no admission fee will be charged.

Camp Meeting Well Attended

The Camp Meeting is progressing nicely. There was a good attendance at the first service, and it has been increasing daily. There was a great crowd present on the Sabbath both from the town and country for miles around. The spirit of sympathy, love and co-operation is in evidence among the Christian people of the community, which is as it should be.

Considering the usual routine in the home, Monday was a good day. Rev. Brooker, of Cochrane, preached a stirring message to an interested congregation in the afternoon which was much appreciated. Tuesday was a red letter day and we believe that lasting impressions were made upon many hearts, as living messages were delivered by the faithful missionaries, representing the needs of Africa and the Near East.

As this goes to press, Mr. Hull of Edmonton will be speaking to a large audience in the interest of the work of Prohibition in the province of Alberta.

On Thursday afternoon, the needs of the Home field will be presented by several speakers. Rev. I. Burkholder will give an outline of the Colportage work in which he has been engaged, and Mrs. M. A. Finlay, of Edmonton, will present the needs of the Rescue Work.

You are cordially invited to help to make the remaining days of the Camp the best we have ever seen or enjoyed in the town of Didsbury. The Camp will close Sunday night. Come and spend the day with us.

If we can all we can in the summer, we can eat all we can in the winter. They who can not, can not.

Fined for Violating Creamery Act

Very considerable interest and some excitement was aroused on Monday afternoon when the farmers' Co-operative Creamery was summoned to appear in the local courts charged with violation of the Creameries' Act.

On account of lack of water at the creamery for either pasteurizing cream or making butter, the management had arranged to ship the cream to Campbell and Griffin Co., Calgary. The cream had been weighed, tested and graded in Olds, as the Co-operative thought itself justified in considering itself as an independent organization. Cream graded in Olds as "special" might probably only grade No. 1 after having been taken 58 miles through the heat to Calgary. However, the decision of the court was that Olds was not an independent station and therefore had no right to weigh, test or grade cream, accordingly they were fined \$25. Mr. Knight, of the attorney general's department, conducted the prosecution with dairy inspectors Scott and Bacchus as witnesses. Dairy Commissioner Marker was also present.—Olds Gazette.

"Here, boy," said the man to the boy who was helping him drive a bunch of cattle; "hold this bull a minute, will you?"

"No," answered the boy; "I don't mind being a director in this company, but I'm darned if I want to be a stock-holder."

TENDERS WANTED

Wanted, tenders for the painting of Grand Centre School. Tenders to be in the hands of the Secretary Treasurers by August 5th, 1922. Further particulars may be obtained from the Secretary Treasurer, Mr. N. P. Johnson, Carstairs. 2c29

Let The Healthy Come

Observant men who are willing to face facts squarely, and who are willing to admit what those facts disclose regardless whether they support or deny their own preconceived ideas, and support or counter to their own pet theories and possibly selfish interests, have long since reached the conclusion that a country of Canada's magnitude, and variety and extent of natural resources in a raw state, must obtain a large increase in population if those resources are to be developed. It is not only evident in Canada, but in some other relief from present handicaps and burdens, and if that measure of progress to which the Dominion is entitled is to be achieved.

But when it comes to deciding upon policies by which the needed additional population is to be secured there is wide divergence of opinion. It is generally admitted that additional population must be obtained through immigration, although there are some few people who would limit immigration to the few who might come quite unselected to this country and who would, therefore, have the Federal Government discontinue all efforts to obtain immigrants.

Others, and a fairly large number, too, would restrict all immigration to people coming from the United States and Great Britain. These good people are very natural that Canada will be swarmed by a host of alien peoples, speaking various languages, and bringing to this country the superstitions, the hatreds, the national jealousies and manners of living of their native lands, with the result that the Canada of the future will be a nation of polyglot peoples with little in common, but with much that may make for dissension and discord.

Such people overlook, or ignore, one important factor in nation building, while they greatly exaggerate the extent of the menace they profess to so greatly fear. In the first place, it is important to recognize the fact that in the development of a new country like Canada all kinds and classes of labor are required. Work cannot be provided for the skilled artisan in factories until first of all the rough labor of the untrained, unskilled worker has been brought in to bear upon the raw soil and materials with which this country abounds. Before a factory can give employment to the skilled worker, excavations must be dug, swamps drained, railways and roads built, trees felled and sawn into lumber, coal mined and numerous other odd jobs performed. The average immigrant from the United States and Great Britain does not come to Canada to engage in this rough work. He and his family come with the idea of bettering their condition in life. It called upon to do this rough, heavy work here such immigrants become discouraged and soon go to the country.

On the other hand, men willing to do this kind of work and looking for it, can be obtained in other countries and it would amount to national suicide to prohibit their entry into Canada through a mistaken, shortsighted fear of foreign Canadian labor, the hundreds of English-speaking peoples. Western Canada would not enjoy the railway facilities it now possesses nor would the Prairie Provinces benefit of its present fine cities and towns had it not been for the rough, unskilled work of the very class of people who would now, if some good people had their way, be barred from entry into this Dominion.

Now there is no real danger of Canada being flooded with immigrants to such an extent as to jeopardize the British institutions and Canadian ideals. The United States have complained that Europeans had to be kept from pouring into that country as the land of promise, with the result that a law was passed limiting the number of people of any race who might enter the States to three per cent on the number of such races already domiciled there. In the first year of the operation of this law it has been discovered from the official figures that in the very next country only did the full number still eligible to enter come to the States. That country was Poland. On the other hand more people left the States to return to Poland than came from those who did not return to Poland. British institutions and Canadian ideals in the millions more people poured into Italy and Greece than came from those countries while in the case of all other European countries, fewer immigrants came to the States than would have been allowed to enter under the new law.

It would appear, therefore, that there is no such great rush of Europeans to the continent, and that the danger of flooding this country with "race mix" is more imaginary than real.

Canada needs immigrants. That need is manifest on every hand. It should therefore be Canada's national policy to admit any white people who want to come to our open areas and to work in the development of our natural resources, provided—and this is the only provision that should be rigidly enforced—they pass strict medical examination and are shown to hold a clear bill of health and give ordinary proof of good moral character. We should discourage excessive mental, moral and physical idleness. Having done this, few wise precautions are necessary, and it is safe to say that out of the emigrating ones who migrate to Canada and it is the more enterprising who do immigrate—the greatest proportion will make good.

A Cruise on the Great Lakes

Enjoy to the Fullest Extent The Trip East

The trip to Eastern Canada or the United States can be made doubly enjoyable by including the delightful cruise on the Great Lakes from Port William and Port Arthur to Port McNicoll or Owen Sound on the Palatial Canadian Pacific Steamer "Kew" with "Assiniboia" and "Montreal". Three sailings a week from Port William and Port Arthur every Wednesday and Saturday to Port McNicoll, where direct connection is made with special train for Toronto, and every Thursday for Owen Sound and the Great Lakes trip is a delightful diversion to the East—ideal fun and refreshing.

The Ticket Agent of the Canadian Pacific will be pleased to give full information as to rates, sailings, etc., and arrange every detail for an enjoyable trip.

The Ticket Agent of the Canadian Pacific will be pleased to give full information as to rates, sailings, etc., and arrange every detail for an enjoyable trip.

Plans to Reduce European Armies

Lord Escher Makes Proposal to Reduce Armies to Reasonable Limits

Plans for the limitation of European armies were submitted to the Disarmament Commission of the League of Nations by Lord Escher of England.

Lord Escher's scheme proposed that the armies be trimmed to the following figures: France, 180,000; Poland and Italy, 120,000; Great Britain, Greece, Rumania, Yugoslavia, Spain and Czechoslovakia, 90,000; and Belgium and Switzerland, 60,000.

His proposal was to apportion armies according to a unit plan. He suggested that 30,000 men comprise a unit, which would bring the armies of European powers to the figures named above.

Installation of an international staff at Geneva to study the plan, and to oversee its operation if decisive action is taken, was also proposed.

Admiral Segrave, Great Britain, submitted a proposal that the naval disarmament treaty be extended to the nations other than those who attended the Washington arms conference.

His Flesh Horribly Burt

His druggist sold him a cheap Add corn remedy. Instead of giving him good reliable Putnam's Corn Excutor which has been for fifty years the standard remover of corns and warts, "Putnam's" never fails, it is always a success. 25c everywhere. Return a substitute.

Puzzled

"I beg your pardon," said the lady collecting thriftily, "would you please help the Working Girls' Home?"

"Certainly," said the man, "but where are they?"

WORRIED WOMEN NEED KID BLOOD

If the Blood is Not Kept Pure Health Will Break Down

It is useless to tell a hard working woman to take life easily and not to worry. To do so is to ask the almost impossible. But at the same time, it is the duty of every woman to give her strength to meet any unusual demands. It is a duty she owes herself and family, and her future health may depend upon it.

To guard against a complex breakdown in health she must not be too hard, red and pure. And now modern medicine does this so well as Dr. Williams' Pink Pills. This medicine strengthens the nerves, restores the appetite, and keeps every organ healthily toned up. Women cannot always keep their strength by the occasional use of Dr. Williams' Pink Pills. Among those who have gained benefit from this medicine is Mrs. C. A. Donald, Broad View, N.S., who says: "My system was once much run down, and my blood pure and healthy. I suffered a great deal from headaches and dizziness, and my appetite was poor. I decided to try Dr. Williams' Pink Pills, and have every reason to be satisfied. I did so. Soon I felt better, and under the continued use of the pills the headaches and dizziness have entirely disappeared. I am now in a better condition than before. For this reason I recommend Dr. Williams' Pink Pills to all women. You can get Dr. Williams' Pink Pills through any dealer in medicine or mail of 50 cents a box or 3 boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

There is enough iron in the blood of forty-two men to make a plough share weighing twenty-four pounds.

Husband and Wife Nearly Dead With CHOLERA

The chief symptoms of cholera are vomiting, and purging occur either simultaneously or alternately, and are usually sudden and very violent, and the matter ejected from the stomach has a bilious appearance and a nasty bitter taste.

On the first symptoms appearing, Dr. Fowler's Extract of Wild Strawberry should be taken, and the trouble checked before it becomes serious. Mrs. Isaac Smith, Campbellton, N.B., writes: "I have been laid up for weeks with cholera. My husband and I were pretty nearly dead with it until we started to use your medicine, and thanks to it, we have found great relief, and are recommending it to all our friends."

"It" years' reputation stands behind Dr. Fowler's Extract, and no one is experimenting with same ever and until results when you get it. Price 50c bottle; put up only by The T. M. L. Co., Limited, Toronto, Ont.

Ontario's Giant Seaplane

Government Forest Service Has Finest Aircraft on Continent

The Ontario Government Forest Service, which has inaugurated at its own expense a special aerial patrol this year, will have in commission the largest and most efficient that has yet been seen on this continent. This machine, a Vickers "Viking" amphibian, arrived recently from England. The "Viking" to be used by the Ontario Government is identical with the machine that won first prize of 10,000 pounds sterling in the British Air Ministry tests of September last year. Operations will be centred at Beaulieu Lake, under Captain W. R. Maxwell, who some weeks ago performed a very unusual feat of flying to Moose Factory in an aeroplane equipped with skis.

It is understood that the Ontario Department of Lands and Forests contemplates making a detailed inventory of the forest resources of the province by means of this most modern method of forest survey. Special aerial cameras will be employed in the work. The wing spread of the "Viking" is 46 feet. The engine, which is a Napier Lion, develops 150 horsepower. The machine at full speed at 6,000 feet is 350 miles, while at a cruising speed of 50 miles per hour the "Viking" can travel 480 miles.

Possibilities Of Commercial Aviation

French Airman's Average Speed Was 122 Miles an Hour

A feat which demonstrates the wonderful possibilities of commercial aviation has just been accomplished by two French airmen, Lieutenants Batielle and Carrier.

They agreed to race against each other from Paris to Marseille and back by aeroplane, the loser to offer the winner a glass of port.

Lieutenant Carrier was in the driving seat for the first half of the race at an average speed of eighty-two miles an hour.

Lieutenant Batielle, however, did even better. His time was 75.50, at an average speed of 122 miles an hour.

By train the return journey, Paris-Marseille-Paris, takes twenty-six hours.

Drives Asthma Like Magic. The immediate relief from Dr. J. D. Kellogg's Asthma Remedy seems magical. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, resulting from the most complete passage of the affected chest, reaches inside the chest and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Canada Exports in Cars Canada is continually ranking higher as a source of purchase of motor cars by Great Britain. During the first quarter of 1922 the Dominion ranked first as a source for the number of motor cars and trucks exported to Great Britain. This is the result of the hidden drainage system. The British land drainage scheme in which 1,600 acres will be involved is now in process of construction and work will be carried on throughout the summer, with a likelihood of getting it nearly or wholly completed this year.

Excellent for Croupy Children.—When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation, soothes the inflamed membrane, and brings the phlegm up and away from the little throat. It is equally reliable for sore throat and cold, croup, rheumatic pains, colic, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

An Indirect Lightning Strike of a Milwaukee theatre weighs 5,500 pounds.

Price 50c bottle; put up only by The T. M. L. Co., Limited, Toronto, Ont.

Minard's Liniment for sale everywhere.

JAMES P. HUMPHREYS, well-known automobile man of Hebron, Md., who declares his belief in Tanlac is the best thing to overcome stomach trouble and run down condition. He is completely restored his health.

"I believe in giving everything its due and I want to say right now I just can't praise Tanlac too highly for what it has done in my case," declared James P. Humphreys, proprietor of the Hebron Motor Co., Hebron, Md.

"For three years or more I suffered from indigestion. After eating I would blast terribly with gas and my heart would palpitate until I interfered with my breathing. I was continually constipated and my nerves were all upset. My sleep was un sound. I got up mornings all tired out, and I was only a shadow of my former self."

"Well, Tanlac has given me a keen appetite, stomach trouble has disappeared, my nerves have steadied down, and I have gained several pounds. Tanlac, to my mind, is the best thing ever 'sold' for stomach trouble and run down condition."

Tanlac is sold by all good druggists.

Cattle Embargo Question Is Again Discussed By House Of Lords

London.—Members of the House of Lords listened in fair numbers to the debate on the proposal to remove the embargo on Canadian cattle exports. A few Canadians were present, but the general spectacle in the upper chamber failed to give the impression that the subject under discussion was one of momentous importance to the Empire.

Lord Ernie, a former minister of agriculture, admitted that undoubtedly by a pledge had been given at the Imperial War Conference in 1917, but it was not a definite pledge to reverse the domestic policy of exclusion, but rather a compromise contingent upon a change in agricultural circumstances, the exigent and recurring of which must be regarded with the context of changed time and circumstances. What he pledged himself at the conference was, so far as the chairman of the Government's policy was concerned, the withdrawal of all allegations of disease among Canadian cattle and the admitting to full doubtfulness of the original case for exclusion.

Lord Ernie maintained his explanation given in correspondence to the press some time ago, declaring that he had remained minister of agriculture, he would have done his best to institute a policy of free trade in admission of cattle, adding that he probably would have failed and resigned.

Lord Birkenhead, the Lord Chancellor, declared that he was still unable to understand Lord Ernie's position. He held that a pledge had been given and would adhere to it. The Duke of Devonshire said there was no danger whatever in the free admission of Canadian cattle. He thought there was not the slightest doubt that Sir Robert Borden had returned to Canada believing that a bona fide pledge had been given that legislation would be enacted to remove the restriction. The removal would have a marked effect in Canada's export trade to other countries, which are apt to point to the embargo when the Dominion desires to export cattle. The changes in the United States tariff made it essential that Canada should open new markets. The development of self-sufficiency, if encouraged, meant that there would be a big demand from Canada for the highest class of stock.

Lord Long as Colonial Secretary and Chairman of the 1917 Conference, maintained that an absolute and complete pledge was given. He thought that a month's quarantine would be a reasonable safeguard and he thought this would be acceptable to Canada.

The debate was adjourned for two weeks. This was done with a view to passing a resolution, which was moved by Lord Harris, that the House accept the Finance Committee's conclusion that Canadian cattle were free from pleuro-pneumonia and might be admitted subject to quarantine precautions.

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial medicines ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can testify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

Sentenced May 4 to Two Years Imprisonment for Sedition

Almohadab, British India.—Hazrat Mohani, President of the All-India Moslem League, has been acquitted by the high court on a charge of inciting war.

Mohani was sentenced to two years imprisonment on May 4 for sedition after the judge had refused to accept a unanimous verdict of not guilty rendered by a jury which included five Indians. In a speech before the All-India Moslem League last December he was alleged to have advocated guerrilla warfare to bring about establishment of a republic, which would be called the United States of India.

B.C. Losses From Forest Fires Heavy

Over 60,000,000 Feet of Green Wood Destroyed in June

Vancouver, B.C.—More than 60,000,000 feet of green timber alone valued at approximately \$200,000, has been destroyed by forest fires during the last month. During the last two weeks between 30 and 40 thousand acres have been swept by fire. At Grassby Bay, 100 miles northwest of Vancouver, fire has destroyed 5,000,000 feet of standing fir and cedar.

It is the worst season from the viewpoint of fire loss that the coast district has experienced for many years.

Body Turned to Stone

Pittsford, Mass. James Burke, 57, whose body for nine years had been slowly turning to stone, died recently in the Mother Margaret Mary home in Chelsea.

Nine years ago, while holding a clerical position in the Panama Canal zone, he became infected from an insect bite; his bones started to stiffen and the process of ossification was under way.

While suffering much discomfort he had little pain and always was cheerful.

Conference on Russian Problems

Stormy Sessions Held at The Hague Widens Chances for Russia and Other Powers

The Hague.—A stormy session of the conference on Russian problems apparently ended all chance of an agreement between the Russians and the other powers.

The chasm between the Russians and the other powers apparently is wider than originally. The group is not divided as it was at Geneva. The British and French are acting now in agreement on the demands concerning nationalized property which the Russians say practically amounts to absolute requisition. This position was developed at the meeting this morning of the sub-committee on property, after which M. Litvinoff, head of the Soviet, stated emphatically he believed that the conference had exhausted its usefulness and would end without results. This afternoon the sub-committee on debts had equally unfavorable results. The Russians insisted on having the present conference fix the total amount of pre-war debts Russia would be expected to pay, but the non-Russians stood out for fixing the sum through mixed commissions at a later date.

M. Litvinoff granted an interview in which he declared that the non-Russian delegates had clearly agreed to make the conference a failure and were trying to pin the Russians down to answer questions in order to justify breaking the meeting.

We have had no reply to our repeated requests for definite statements regarding what credits we are to get for reconstruction," he said. "Instead of definite answers we get lectures on confidence and how to restore confidence. If we cannot get credits through the Government we shall get private credits."

Harve Wrought by Shell

Eight Children in Watertown, N.Y. Were Blown to Pieces

Watertown, N.Y.—Eight children, ranging in age from six to eleven years, were blown to pieces by the explosion of a 75-millimeter shell on the back porch of a house in Dunsmuir Street, occupied by Edward G. Workman and wife L. Schibarsky.

The shell, which was owned by Mr. Workman, was one which he had kept as a souvenir and used on the porch to keep the door from closing. It was thought to be "dead."

The children were playing croquet in the back yard. The shell is believed to have either been set off by the hot sun or to have been struck by one of the 44-calibre with a copper-nitro bullet. Windows within a radius of two blocks of the explosion were shattered.

Activity in Lumber Camps

Boom in Building is Causing Shortage of Lumber Supplies

Ottawa.—The present activity in the building is causing some shortage in the wholesale lumber supply, with the result that camps will be in very active operation during the coming season. Commerce which have not been in operation during the last two years will be starting up again.

According to the Dominion Live-stock branch, the activity in the lumber camp is also expected to face a very beneficial effect on the horse market.

Missouri Wreck Kills Five

Kansas City, Mo. Five persons were killed and 40 injured, most of them seriously, when the Missouri Pacific Special Five, westbound from St. Louis to California, collided head-on with a local freight train near here.

Legless Man Good Swimmer

Sudbury.—Although he lost both legs in an accident some years ago, George Connors, of Sudbury, won second prize in the quarter-mile swimming race at the regatta here.

Germany Maintains That Country Unable To Meet Cash Payments

Premier at Washington.

New Canada-United States Boundary Treaty is Proposed

Washington.—A proposal that the century-old agreement between the United States and Canada regarding the military and naval defenses maintained on the international boundary be revised in permanent form and in line with the agreements reached at the Washington conference was the chief sub-issue here of Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada, who is conferring with Secretary Hughes. A new treaty modernizing the Rush-Bagot agreement probably will be negotiated between the two countries.

Montreal Port Breaks Record

Grain Cargoes to July 6 Totalled 150,000 Bushels More than 1921

Montreal.—That the port of Montreal is not only equalizing but even exceeding the record grain shipments of last year was shown by figures supplied by the Grain Clearance Board. From the opening of navigation on June 1, to Sunday, July 2, there totalled 29,668,162 bushels and against 29,126,918 for the same period 1921. Last year's total output from Montreal amounted to 128,452,900 bushels, nearly fifty millions more than from any other port on the North American continent.

British Mission Will Tour Canada

Object is to Secure Entries for Empire Exhibition

Ottawa.—The Government has received a communication from Right Hon. Winston Churchill, Secretary of State for the colonies, intimating that a mission will visit Canada next month in connection with the organization of the proposed British Empire Exhibition.

In view of the Imperial nature of the work which the mission is setting out to accomplish, the Dominion Government has agreed to grant free transportation over the lines under its control to the seven members of the mission.

The object of the mission in coming to Canada is to induce the Canadian Government to take part in the proposed British Empire Exhibition.

No Invitation Received

Paris.—A meeting between Premier Lloyd George and Prime Minister Edouard Daladier, on the subject of the situation in the Republic, was held in official circles here but it was said at the French office that no invitation had been received from the British premier for such a conference.

Paris.—Germany served notice on the Allied powers through the Reparations Commission that she could no longer meet cash obligations of any sort, whether growing out of the Versailles treaty stipulations undertaken by acceptance of the London armistice of May 8, 1919, or arranged by the schedule of payments drawn up by the Reparations Commission on March 21, 1922.

The depreciation of the mark on foreign exchanges is given as the reason for the possibility of Germany to pay and for her request that she be relieved of cash engagements, including the payment of 22,000,000 gold marks, as well as all subsequent payments in 1922, 1923 and 1924.

The German note submitted to the reparations commission makes no mention of Germany's intention regarding cash payments after 1921, but asks that the negotiations for a foreign loan interrupted at Paris last month, which Germany blames for the continued fall of the mark, be resumed at an early date, or a financial, economic and social catastrophe in Germany would be likely to develop.

The Germans asked to be relieved of payment on the ground that the money was badly needed to pay for foreign credits soon to be purchased in order to insure enough bread for the people.

In this note, Germany points out that in May, 1921, the rate of 60 paper marks to the dollar formed the basis of fulfillment of reparations payment, while on July 6 last, the mark had declined to 500 for the dollar. In order to effect the payment of 720,000,000 gold marks during this year the sum of 60 billion paper marks would be necessary with the mark at its present value.

The note concludes: "The recent development in the rate of exchange of the mark, which began with the suspension of the negotiations of the loan commission, necessitates a speedy provision of settlement, the relief payment expected from a foreign loan not having been released. In consideration of the above, the German Government would be glad if the commission would make its decision as to demands for reparation with all possible speed. The German Government trusts that such decision will favor the recognition of the loan negotiations."

Great Lakes Cruise

Pleasant Break in Journey to Eastern Canada Going by Lake and Rail

Travellers to Eastern Canada will find the Great Lakes trip a delightful break in a comparatively long journey.

The freedom, the clean cool contrast, the fun on shipboard, the concerts, promenades and dances, the excellent meals appeal to all who travel on the palatial steamers "Nurenia," "Halekio" and "Huron," that sail from Port Arthur, Saturdays, Mondays and Wednesdays. You will enjoy the sail down beautiful St. Mary's River, the thrill of passing through the "sea" locks, and a delightful and restful trip across Lakes Superior and Huron. The fare by lake and rail to Toronto and points East is exactly the same as by all rail. The cost of meals and berth on steamer between Port Arthur and Toronto is \$10.00 one way. Any Canadian National Grand Tour Ticket Agent will give you all particulars.

Britain Will Not Change Naval Policy

Government Has No Intention of Building Capital Ships

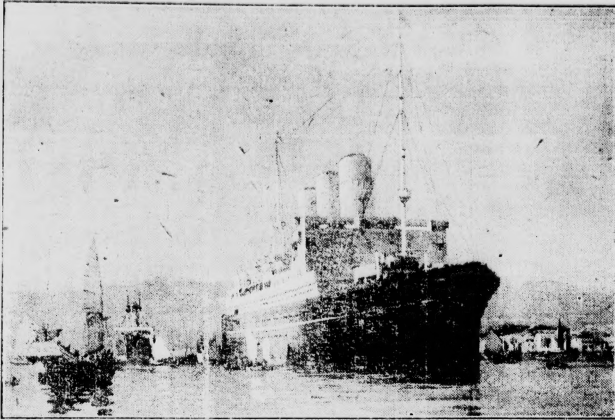

London.—Bacon Lee, First Lord of the Admiralty, answering a question in the House of Lords, declared there had been no new developments in connection with an on submarine attack which necessitated a reversal of the British naval policy. Therefore the Government had not reconsidered and did not intend to reconsider the policy providing for the building of two capital ships.

"ABOUT THOSE BILLIONS WE OWN EACH OTHER—LET'S CALL IT OFF."

NEW YORK TIMES.

Battle for Marine Supremacy Renewed on Pacific Ocean

The "Empress of Canada," the new C.P.R. liner which opens a new era of development in Canada's trans-Pacific Trade.

THE arrival at Vancouver of the "Empress of Canada," the new Canadian Pacific greyhound of the Pacific, was marked at that port as an event of the first importance. Public receptions for the great liner were planned and thousands of Vancouver's citizens took the first opportunity of visiting the ship and making a thorough inspection of her splendid appointments.

The "Empress of Canada's" importance as a factor in Canada's trans-Pacific trade was outlined in a message received at Vancouver from D. C. Coleman, vice-president C.P.R. western lines, on the day of her arrival. Mr. Coleman said:

"The struggle for supremacy in seaborne trade was first fought out in the narrow waters of the Mediterranean, and around its shores and those of neighboring seas, arose great seaports, such as Smyrna, Alexandria, Constantinople, Salonica, Venice, Genoa, Naples, and Marseilles. In the sixteenth century the scene of conflict shifted to the Atlantic, and leadership passed in turn to Spain, to Holland and to Britain. This brought about victory to London, Antwerp and Hamburg and laid the foundation of the greatness of New York, Boston, Baltimore and Montreal. In the opinion

of many, the twentieth century will see the battle renewed on the waters of the Pacific, and there we may expect an area of breathless competition. British navigators, and British traders led the way there, and if the Empire is to remain in the lead, the Dominions of Australia, New Zealand and Canada must be alive to the greatness of the issue and the immensity of the possibilities. As an evidence that Canada is ready to meet all concerns in friendly rivalry, the Canadian Pacific sends to the North Pacific one of the finest products of the shipyards of the Empire. It is our hope and our expectation that she and her sister ships will be deemed worthy of the flag which they fly, and that during their lives they will contribute greatly to the upbuilding and advancement of Canada's Pacific ports—Victoria and Vancouver."

The "Empress of Canada" is 21,517 tons gross register, 627 ft. long, 77 ft. 6 in. beam, with a cruiser stern, three funnels, and two pole masts, and is the second largest vessel in the world to pass through the Suez Canal. She has accommodations for 1600 first, 100 second, and 240 third-class passengers, and special, carefully equipped quarters for 925 Asiatics, while her full crew comple-

ment is 550. She is propelled by two sets of Brown-Curtis turbines, and, though her estimated sea speed was 16.19 knots, on the run round from the Clyde to Falmouth, she actually attained a maximum of 22 knots. She is the largest ship ever built at the Fairfield yards on the Clyde and cost about \$8,500,000.

Especially notable features are 2,000 feet of oak parquet flooring for dancing in the main reception-room; the dining-room, another noble apartment, seating over 300 at a time; also a verandah cafe, a gallery of 100 ft. long, and 15 ft. wide, giving access to all the principal public rooms. The total length of the first-class promenade deck is 110 ft., 100 ft. of which is enclosed in as to be available in bad weather. The ship will encounter various climates on her trans-Pacific run, and while there are exceptional ventilating arrangements and electric fans, attractive fireplaces are features of the heating arrangements, and another feature is a swimming pool thirty feet long, eighteen feet wide, with a maximum depth of eight feet.

The "Empress of Canada" sails via Honolulu, to Yokohama, Kobe, Nagasaki, Shanghai, Manila and Hong Kong.

BURNSIDE NEWS

Miss Tena Blain who has spent the past month with her sister, Mrs. Alex. Luper, returned to her home in Okotoks on Friday.

Nearly everybody attended the Community Hall picnic and had a good time. Our ball team beat Coburn—as usual.

What happened to the Jutland correspondent? Did he have a relapse?

The frost on the evening of the 22nd blackened a lot of potatoes, beans and other perishables.

All the world and his wife went berry picking on Sunday. Mr. and Mrs. Joe Munson returned from Calgary Friday.

Their daughter, Mrs. Ralph Edgington, who is in the Calgary Hospital is improving in health.

The next meeting of the Burnside U. F. A. will be held in the Jutland Schoolhouse on Friday, August 10th. Mr. Wm. Irvine, M. P. for East Calgary will address the meeting. Everybody welcome. Ladies please bring lunch.

The Literary Lidd Is Off

Some of our story writers are running riot with their smiles. Here are a few we gathered in our late reading:

"Her lips uncurled like a light auto."

"But his mind, like her face, was made up."

WEDNESDAY, JULY 26th.

Think this over. Does the man from some outside city who comes into town and solicits your printing business and carries some of it away with him help you to support the town by paying taxes, spend his money in your stores, sympathize with you in your troubles or boost your undertakings as a community? He may give you the doubtful advantage of a few cents difference in price because the larger printing organizations are feeling the pinch as well as the smaller ones who cannot afford to send out representatives, and they must have business to keep them going. What about your home newspaper office which has a plant that has to be kept up week in and week out on the small amount of business which a small town can supply but does not? Here's the way one writer puts it and its true:

"When I go on the shopping streets of a Saturday evening, I find hundreds of people walking up and down the street and circulating generally. Not five per cent. of the crowd need printing, but it all of it needs groceries, dry goods, corsets, shoes, clothing and lingerie, to say nothing of the smoking stuff. The printer has not even a look in to do business with the bulk of this people and he knows it."

But what about the small per cent. of these people who do need printing but, sooner than patronize a home industry that is all the time giving valuable services to the local district free of charge, give it to an outsider who has no interest whatever in their welfare?

Specia Session of Alberta Legislature Being Held

A special session of the Alberta Legislature is in progress this week to give effect to legislation which will bring into being, in accordance with recent dominion legislation, a wheat board for the handling of the wheat marketing in Alberta this year. Similar legislation is to be passed by Saskatchewan and, it is anticipated, also by Manitoba. Several features of the natural gas question in the province may also come up for consideration at the special session, which is expected to last not more than ten days or two weeks.

During the recent exhibitions at Calgary and Edmonton, butter made in Alberta captured a great many of the prizes offered. The butter at Calgary, exhibited by various producers in the province, was judged by Commissioner Gibson, Dairy Commissioner of Manitoba, who said that unquestionably Alberta butter was the finest in all Canada.

MAKE PERFECT BREAD

WORLD HAPPENINGS
BRIEFLY TOLD

Sidi Mohamed En Nefar, the Bos of the agency of Tunis, Africa, died at the age of 67 years.

The Washington treaties bill, ratifying the pact signed at the Washington armament conference, passed the committee of the House of Commons.

A manifesto accusing the British Government of violating its pledges to the Arabs has been issued by the delegation in London.

Princess Mary and Viscount Lascelles opened their official social life at Chesham House with a dinner to the King and Queen.

Shell fire from a fort controlled by Chen Chiang Ming, the United China leader, destroyed the main base of Sun Yat Sen, the deposed president of the Canton Government.

Arrested on a charge of manufacturing bombs, Filadelfa Castro, mayor of Leningrad, died, blew up the courthouse, killing all the occupants, says a despatch to Central News.

The treaty between Japan and China, negotiated at the Washington conference, providing for the return of Shanghai to China, has been filed with the League of Nations.

Royalty Discouraging Snobbery

Encouraging Good Feeling Between Boys of Different Social Status

The Duke of York, second son of the King, is repeating this year the experiment he made last year (see what has been called "the discouragement of Snobbery.") So thorough an understanding was then established between boys from Westminster School and boys from a Welsh steel works, following a football match, that a summer camp was set up by the Duke to encourage good feeling between boys of different social status. Two hundred public school boys with an equal number from congested and industrial areas were invited to share the camp.

DEEP HOLLOW COUGHS
ARE MIGHTY DANGEROUS

That same cough is everywhere you go, deep and hollow, who-because-constitutive. First it was a cold, next came Croup, vitally decreased then the trouble was very serious. Never neglect a cold, not even a little one. Never trifle with sore throat or Catarrh. Get out your "Catharine's" breathe deeply into your lungs the healing soothing vapor of Catharine's. Let Catharine's come clear out the nostrils. You'll wonder at the change when you use this healing remedy. It's really splendid for coughs, colds, bronchial irritation and Catarrhal trouble. Sold everywhere. Two months treatment \$1.00, small size 50c.

Recovering Fuel

A new process is now in use for recovering fuel from cinders.

A hundred tons of coal used in a furnace leave about twenty tons of cinders, from which five tons of good coal fuel can be recovered by means of magnetism. The fuel contains sufficient iron to make it possible to extract it from the non-magnetic ash, and it is believed that millions of tons of fuel can be saved in this way.

As an experiment at the University of Wisconsin, crows are being fed sawdust treated with water.

Quite Chic!

MANY CHILDREN SICK.
HOW TO TREAT THEM

The kiddies get their first cold, catch cold, get croup and give their mothers lots of trouble. With this one's child with Nervoline, rub it on plentifully. It can't harm them. Then, make a gargle with Nervoline and water, and have the child gargle for five minutes. Just at bed time give the child ten drops of Nervoline in one sweetened water. The result is fine, and next morning child is better. Nervoline is a great protection in the home. Large 50c bottles, at all dealers.

Burns committed his poems to memory as he composed them, and when he set down to write he had before him no labor of composition, but only the task of writing down what he had already finished.

KEEP CHILDREN WELL
DURING HOT WEATHER

Every mother knows how tall the hot summer months are to small children. Children's nervous, diarrhoea, indigestion, colds and stomach troubles are all at this time and often a person's little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if the trouble comes suddenly—as it generally does—the Tablets will bring baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

SASKATCHEWAN
WOMAN
RECOVERS

Found Health by Taking Lydia E. Pinkham's Vegetable Compound

Melrose, Saskatchewan.—I saw Lydia E. Pinkham's Vegetable Compound advertised for women's troubles and when a friend recommended it to me I tried it and it has done me so much good in the two years in which I have been taking it that I find I am a different woman since then. I recommend your Vegetable Compound as much as I can and you may use my letter as a testimonial.

—Mrs. Wm. J. Thomas, Melrose, Saskatchewan.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject.

Mrs. Thomas writes that she is a different woman now. If you are suffering from troubles women often have, or feel all run down, or have any ailment or disease for which regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should have you as fit as Mrs. Thomas and many, many other women.

This medicine has been helping sick women nearly fifty years—surely a long record of service.

Curiosity Inextinguishable

Mother—You shouldn't eat your cake so quickly, Robbie. I guess knew a little boy who ate his cake so quickly that he died before he finished it.

Final Games for Base- ball Championship

The final games for the baseball championship of the Rosebud League have now been arranged, according to President E. E. Freeman.

The southern leaders in the League (Airdrie and Carstairs) will play a deciding game at Crossfield on Friday, July 28th, each club to receive half of gate.

several winners in different receipts and pay for half of balls used.

The winners of the above game will play with Olds at Carstairs on Tuesday, August 1st and at Olds on August 4th.

In case each club wins one game out of the two to decide the championship a deciding game will be played at Didsbury on Wednesday, August 9th.

The champions of this league will then have to play off with

AROUND THE TOWN

The Didsbury Fair, August 17th and 18th.

Mr. and Mrs. W. Geddes, of Calgary, were visiting with Mr. and Mrs. H. Bricker and family for a day or two last week.

Mr. Wm. Henderson, of Calgary, is visiting with his daughter, Mrs. A. R. Kendrick.

Mr. H. Clark, of Coleman, is visiting with Mr. and Mrs. J. E. Liesemer for a few days.

The Innisfail Fair is to be held on Thursday and Friday of this week.

Miss Lily Rupp, assistant at Chamber's drug store, left on Tuesday for a two week's vacation at Banff.

A dance will be held at Worthington's barn on Friday night, July 28th. Gents 75c, ladies bring refreshments.

Dave Sinclair put Didsburyhibition last week winning four firsts and two seconds in the on the map at the Red Deer Exhibition with his horses.

The Didsbury district school Fair date is on Friday, September 15th, this year. Olds is on September 9th and Carstairs September 22nd.

Mr. and Mrs. D. S. Shantz of Calgary are attending camp meeting and visiting friends in the district.

We had another little shower on Monday night, the first since three weeks ago. It's surely dry this season but the surprising thing is that crops are looking as well as they do considering the little moisture we have had this summer.

The little girl, Katherine Cellars, who we reported as being so badly burned last week, succumbed to her injuries on Friday last and was buried on Saturday at the Didsbury cemetery. Services were held at Durrer's Undertaking parlors and the Evangelical church, Rev. Mr. Dengis officiating.

Mr. M. Watts, one of our former High School instructors who has been in Edmonton marking papers since the local schools closed, was a visitor in town for a short time on Monday on his way home to Calgary. We understand Mr. Watts intends taking up a University course.

It is proposed to construct a hydro electric plant on the Bow River east of the city, to consist of four dams the first of which will cost half a million dollars. The project is that of the Alberta Hydro-Electric Company Ltd., of Calgary.

The Didsbury Fair, August 17th and 18th.

The Ladies Guild gave a surprise party in honor of Mrs. R. Y. Laidlaw on Monday night. The evening was very pleasantly spent in games and music. Mrs. H. Hermanson and Mrs. Moynihan rendered solos which were much enjoyed. After lunch everyone joined hands and sang "For He's a Jolly Good Fellow," and "Auld Lang Syne" which marked the close of the evening.

league to decide the Amateur Championship of Alberta.
